

This will confirm that the Wilson County Sheriff's Office has approved a twenty four month pilot project to utilize WhenPeopleWork.org (WPW) for purposes of aligning returning citizens released from the Wilson County jail, with employers who will register with the WPW site and to provide other needed services to ensure successful reentry. We expect to begin the initial program on or before January 2, 2023.

It is understood that the Wilson County Sheriff's Office will be under no obligation to make any payment or advance any funds during the pilot stages of the program. We understand that the Wilson County Sheriff's Office will from time to time be required to provide certain previously defined outcome impact data from the various sources within our system, for WPW's use in evaluating the efficacy of the program. WPW will be required to provide outcome data reports to my office on a quarterly basis. The Wilson County Sheriff's Office will also cooperate with WPW NC staff in enrolling our returning citizens in the WPW program and to arrange for appropriate access to the county jail to make these services available to our population. We understand that on site enrollment and counselling services will also be available to the families and proxies of our returning citizens who who are assisting them in their transition back to the community at the WPW Wilson County Office located at 2270 Nash Street North, Wilson, NC 27893. The WPW staff will at all times be required to comply with all state, local and federal laws and requirements for security compliance and other applicable conditions and regulations.

We further understand that Wilson County Sheriff's Office will have the benefit of modeling the WPW reentry services system to meet its own particular needs in order to address issues we deem to be the most pressing.

Our understanding is that if the pilot project demonstrates acceptable fiscal and social outcomes, the Wilson County Sheriff's Office will give every consideration to transitioning the WPW program from a pilot project to a formal pay for success project in accordance with customary industry standard guidelines and documentation, to be discussed further.

We look forward to beginning what we hope will be a successful collaboration with WPW for employing and empowering our justice impacted citizens in Wilson County.
